Organizer: Rudolf Steiner University College, Oslo, Norway

We would like to invite old and new friends to our 10th summer school. This year we will meet in Ljubljana, Slovenia and we are happy that our Slovenian friends will let us use their school for a week in the summer time. Because of other obligations we will have to start some days earlier than last year. **Please note that we start in the middle of the week, on a Thursday!**

The morning lectures will be on the teaching of biographies and will be held by **David Brierley and Godi Keller** from the Rudolf Steiner University College in Oslo. David's lectures are called "Biographical Case studies in the Understanding of Creativity".

For conversation groups we will have meditation and children with special needs with **Kari Frid. Trygve Mjøen** will have a theatre work shop. And we will have singing with **Igor Velepik**, woodwork with **Tomas Mandik/** basketry with **Nikolas Petr** and Bothmer with **Kata Barabas**.

I would like to have a conversation group about how to use biographies in upper school and present a couple of interesting people who are doing a great work in the world today.

We hope to meet as many as possible of you. Looking forward to seeing you in summer!

NB! The seminar is in English without translation!

As we have the support of the Norwegian Association of Steiner schools, the seminar is free of cost. But you have to pay 10 euros for food/excursion.

We start **Thursday 30th June at 09.00** and go on till **Tuesday 5th July in the evening**.

Please send your application to: astridbjonness@combitel.no before **25th May!**

Yours Astrid Bjønness
